

Addis Ababa University

ICT Development Office

End-User ICT Service Acceptance Form

Addis Ababa University considers the responsible use of computer resources to be a critical element in protecting the interest of the university community. Permission to have access to the computer network is granted provided that the usage conditions highlighted below are well understood by the user.

1. Using university computers to access recreational Internet sites like music, video, streaming audio rather than academic consumes the precious bandwidth needed to handle the ever-increasing traffic demand.
2. Downloading unauthorized files from illegitimate or seedy web sites provides an easy way for hostile codes or viruses to slip into our system undetected.
3. Using university computers to surf sports, games, gambling, lottery, adult or other inappropriate content sites on the Internet adversely affects productivity and wastes network bandwidth.
4. Storing, distributing inappropriate content over the network affects morale of other system users and can also put the university at risk of lawsuit for providing a hostile environment.
5. Loading diskettes or CDs from unknown or illegitimate sources can be a source of virus attack.
6. Allowing others to use ones logon ID to access network resources will make the owner accountable for their action
7. Tampering with PC configuration parameters or trying to access unauthorized services has serious implication on network performance and compromises information security.
8. Allowing unauthorized people to use ones PC will make the owner responsible for their action.
9. Loading malicious codes or trying to hack others password ID is absolutely illegal.

As user of Addis Ababa University service, I understand the implication of all of the above and I agree to be held accountable for any misuse traceable to anyone of the above.
