

## An International NGO Headquartered in Korea Holds a Peace Conference in Ethiopia in September

On Thursday, September 5, '2019 HWPL Ethiopia Summit: 5th Anniversary of the WARP Summit' will host 200 peace advocates from political, religious, civil and media groups at the University of Addis Ababa. At the event with the theme of 'Legislate Peace – Steps toward Sustainable Peace works in Ethiopia' the host organization aims to present a comprehensive peace project in Ethiopia. The project is inspired by the DPCW, a comprehensive document describing the role of members of the international community in preventing and resolving conflicts.

The declaration is in the process of being introduced as a draft resolution to the United Nations. 'Legislate Peace' project by HWPL and International Peace Youth Group (IPYG), a comprehensive campaign promoting the DPCW, has already attracted 1.5 million people from 195 countries to write peace letters and receive signatures of support from the heads of state.

At the anniversary event in Ethiopia, HWPL will give a presentation on the peace activities which have been doing in Ethiopia, while many organizations will hold MOU signing ceremony, celebrating close cooperation with HWPL in the future peace building activities. Religious leaders will participate at the HWPL religious peace camp, and journalists will host media forum to share their thoughts on peace-building activities in Ethiopia. As the highlight of the Conference, the World Peace Summit in Ethiopia will bring everyone as one.
